Heres a stepbystep guide

- 1 Active Listening is Key Before offering any advice truly listen to understand the problem Dont interrupt focus on the speakers emotions concerns and underlying needs Ask clarifying questions like Can you tell me more about that or What have you tried already
- 2 Empathy is Essential Put yourself in the other persons shoes Acknowledge their feelings and validate their experience Phrases like That sounds incredibly frustrating or I understand why you feel that way can go a long way
- 3 Frame Your Advice Strategically Avoid dictatorial statements Instead phrase your advice as suggestions or possibilities For example instead of saying You should

do X try Have you considered doing X It might be helpful because

- 4 Focus on Solutions Not Blame Help the person identify potential solutions and explore different approaches Avoid placing blame focus on the future and how to improve the situation
- 5 Tailor Your Advice to the Individual What works for one person might not work for another Consider their personality experiences and resources when offering suggestions

Example Imagine a friend struggling with a difficult boss Instead of saying Just quit your job bad advice a better approach would be I understand how frustrating this is Have you considered talking to your boss about your concerns Perhaps you could suggest a specific solution to the problems youre facing If that doesnt work we can brainstorm other options like looking for a new role
